

BRANT/BRANTFORD COMMUNITY PARAMEDIC PROGRAM

355 Henry Street, Brantford, ON. 1-877-641-9877, Fax 519-753-3525

Community Paramedic Seasonal Vaccination 2024/25

To our valued physicians and healthcare providers, we sincerely thank you for your continued support and partnership in the successful delivery of our program. We will be able to administer both regular and high-dose influenza vaccines and COVID-19 vaccines of an undetermined brand at this time (while supplies last).

We have made some adjustments to our seasonal vaccination medical order form to make the process clearer and better defined.

The form is available on our website as a fillable pdf, it can also be faxed to our office at 519-753-3525

<https://www.brant.ca/en/emergency-services-and-health-care/community-paramedic-programs.aspx>

To streamline the process, we will require you to use only this new form. We will be unable to honor any orders that are not on this form.

Please allow at least 2-3 weeks for processing and completion of the immunization following sending the order. Please advise your patient of this timeline.

The criteria for immunization is the patient must be housebound/bedbound.

Please note this is a fall program only, we will not be offering a spring vaccination program at this time. Should the patient not be home when we visit, we are unable to visit a second time.

Direct caregivers will be vaccinated if requested and we are provided advanced notification of this (must be included on the order form). Community Paramedics do not carry extra vaccines as such if there is no advance notice of caregivers they will not be vaccinated.

The vaccination program will operate until January 31st 2025, so please ensure any orders are sent by January 10th 2025.

Respectfully

Glen Cunnane
